

Solicitation for Comment

Sebastian County is requesting comment on the possible development of updating the Sebastian County Hazard Mitigation Plan. The Sebastian County Hazard Mitigation Plan was approved in June 2005 and must be updated every 5 years to meet FEMA compliance. Sebastian County is in the process of preparing an application for Hazard Mitigation Grant Program (HMGP) funds to provide funding to update the current Hazard Mitigation Plan. These funds were made available to local governments following a presidentially declared disaster.

All residents of Sebastian County are encouraged to provide comments via telephone at 479-785-2651, email at sgrist@wapdd.org, or letter at Western Arkansas Planning and Development District, PO Box 2067, Fort Smith, AR 72902. Comments must be received by June 12, 2009 to be considered for this project.
